

Tatiana B. Tennikova

Prof. Dr. Chem. Sci.

**Institute of Chemistry
Saint-Petersburg State University**
Universitetskii pr. 26
198 504 Petrodvoretz - St. Petersburg, Russia
Tel: (+7 812) 363 6722 (Dean); (+7921) 969 1060 (mobile)

Fax: (+7812) 363 6722
Email: tennikova@mail.ru
Web: www.chem.spbu.ru

Date of Birth:

February 7, 1948

Place of Birth:

Leningrad/St. Petersburg (USSR/Russian Federation)

Nationality:

Russian

Education:

June 14, 1973 – Graduate Leningrad State University, Chemical Faculty, Department of Physical Organic Chemistry

November 17, 1978 - PhD in Polymer Chemistry

June 9, 1998 - Dr. Chem. Sci. in Physical Chemistry (Adsorption and Chromatography)

SUMMARY OF EXPERIENCE:

High skilled and expertized in Polymer Chemistry (free radical suspension, emulsion polymerization and bulk polymerization, polymer analogous reactions), Bioorganic Chemistry (protein chemical modifications, enzyme catalysis), Applied Enzymology (immobilized enzymes, enzyme reactors), Physical Chemistry (adsorption and chromatography, HPLC of polymers and biopolymers: theory and practice, modern stationary phases). One of the World inventors of the new monolithic polymeric media and new dynamic method (High Performance Liquid Chromatography on Short Monolithic Columns) widely used over the World for efficient and fast separations of biological substances. Advanced biomaterials for medicine and biotechnology. Administrative experience.

EXPERIENCE:

- 2012 – present -** Professor, Head of Interdisciplinary Laboratory of Biomedical Chemistry, Institute of Chemistry, Saint-Petersburg State University
Teaching courses: Medicinal chemistry, Functional Polymers, Fundamentals of Biotechnology, Chromatographic analysis of biological mixtures
Scientific Activities: advanced biomaterials, polymer nanoparticles, biodegradable polymers, scaffolds for tissue engineering, drug delivery systems, nanotrap, microarrays, enzyme reactors
- 2009 – 2015 -** Vice-Director
Institute of Macromolecular Compounds of Russian Academy of Sciences
- 2001 – 2015 -** Head of Laboratory of Polymer Sorbents and Carriers for Biotechnology, Institute of Macromolecular Compounds of Russian Academy of Sciences
Scientific Activities: chromatography on monoliths of proteins, peptides and polynucleotides, the processes of bioseparation and bioconversion: immunoaffinity isolation of monospecific antibodies, affinity separations for the biotechnology with preparation of special affinity sorbents, enzyme reactors, in vitro biological modeling, polymerization, polymers for tissue engineering, drug delivery systems
- 2005 -** Visiting Professor, Kumamoto University, Japan
Scientific Activities: teaching course on monolithic materials
- 2004 -** Visiting Professor (Mercator Visiting Professorship Program), Institute of Technical Chemistry, University of Hannover (Hannover, Germany)
Scientific Activities: Mineral-organic composite materials for bone tissue engineering, specially designed scaffolds based of a principle of biorecognition
- 1999 - 2003 –** Professor, Department of Polymer Chemistry, Faculty of Chemistry, Saint-Petersburg State University
Teaching courses: Functional properties of Polymers (Biomedical Polymers), New Approaches in Polymer Chemistry, Polymer Aspects in Biochemistry

1998 – 1999 -	Visiting Professor, Ecole Polytechnique Fédérale de Lausanne (Lausanne, Switzerland) <i>Scientific Activities:</i> DNA plasmides and recombinant proteins research
1997 – 2002 -	Russian Head of joint international projects (Granted by DFG) with University of Hannover, Institute of Technical Chemistry (Germany), numerous short-time visits <i>Scientific Activities:</i> Affinity isolation of recombinant biological products, on-line analysis for down-stream processes in biotechnology with use of monolithic media
1997 – 2001 -	Leading Research Scientist, Institute of Macromolecular Compounds of Russian Academy of Sciences
1993 – 1997 -	Senior Research Scientist, Institute of Macromolecular Compounds of Russian Academy of Sciences
1992 – 1993 -	Invited Scientist, Polymer Standard Service GmbH (Mainz, Germany) <i>Scientific Activities:</i> Polymer sorbents for liquid chromatography
1988 – 1992 -	Senior Researcher Scientist, Institute of Macromolecular Chemistry, Academy of Sciences of Czech Republic (Prague) <i>Scientific Activities:</i> Polymer sorbents for liquid chromatography, macroporous polymer monoliths
1981 – 1988 -	Senior Research Scientist, Institute of Macromolecular Compounds of Russian Academy of Sciences <i>Scientific Activities:</i> Inorganic sorbents for liquid chromatography, HPLC of biomolecules
1973 – 1981 -	PhD student, Senior Research Scientist, Institute of Antibiotics and Medical Enzymes, Leader of Projects <i>Scientific Activities:</i> Immobilized Proteases, Polymer Modification of biologically active substances, enzyme reactions, medicines.

Publications:

Over 250 publications (Russian, English, German), 4 monographs

Patents:

20 patents of USSR, Russian Federation, Czech Republic, USA, Canada, EU

Editing:

Journal of Chromatography A and B (JCA/JCB, Elsevier), Invited Editor
Journal of Separation Science (JSS, Wiley), Editor

Teaching

Present lecture courses: Medicinal chemistry, Functional Polymers, Fundamentals of Biotechnology, Chromatographic analysis of biological mixtures
Supervisor of Scientific Seminar for Masters “Journal Club”
Supervisor of 25 PhD students (Russian Federation, Germany, Switzerland)

Personal grants:

- 1986 - 1987** - personal grants of Russian Academy of Sciences for scientific work at IMC ASCR
- 1990 - 1992** – personal grant of Academy of Sciences of Czech Republic for long-term stay at IMC ASCR
- 1994 - 1996** – long term personal grants from International Scientific Foundation (Soros Foundation)
- 1997 - 2000** – personal grants from DAAD and DFG (German Grant Agencies)
- 2001 - 2005** - personal grants from Regional North-West Department of RAS
- 2004** - Mercator Visiting Professorship (DFG)
- 2005** - personal grant for Visiting Professor position, Kumamoto University, Japan

Supervisor of numerous Russia and International research grants (RFBR, DFG, DFG RAS, RAS, Russian Scientific Foundation (RSCF). **Current projects:** “Translation biomedicine in SPbU” (RSCF), “Biohybrid technologies for modern biomedicine” (Ministry of Science and Education of Russian Federation)

Awards:

- 1978** - USSR Ministry of Medical Industry Award
- 2006** - BIA Separations honor Award for Research and Promotion of CIM Suppo
- 2009** - Distinguished Scientist of Russian Federation, State Award
- 2010** - Gold Medal for the Best Innovative Project, RF (Universal polymer material for microarrays construction)
- 2011** - Special Elsevier Award for one of Top Cited Review 2008-2009
- 2014** - Special Springer Award for the Top Cited Review in 2013

Memberships:

St. Petersburg Union of Scientists, Member of Coordinating Council, Mendeleev's Russian Chemical Society, American Nano Society
International Scientific Advisory Board, BIA Separations, d. o. o., Slovenia

Research&Commercial Relationships:

Principle inventor of polymer macroporous monolithic materials commercially developed and distributed over the World under Trade name Convection Interaction Media® by BIA Separations, d. o. o., Slovenia
Leader of numerous specially supported by BIA Separations join research projects
Promoter and key executive of short research projects carried out in Slovenia (several research visits to BIA Separations)
